

JKG Group Offers Additional Product Packaging Capabilities

Versatile Sachet Packs and Samples Packets Now Available

Deerfield Beach, Fla., Sept. 19, 2018 – JKG Group today announced the addition of new, high-demand product packaging capabilities at its manufacturing plant in Deerfield Beach, which serves businesses throughout Florida, the Southeast, and Latin America. The company has added new equipment for pouch packs, including sachet and sample packets for creams, serums, tablets, capsules and powders.

“We’re dedicated to reinvesting in our business and expanding our services to meet demand,” said Adam Gittlin, president of [JKG Group](#). “This investment dramatically extends our product packaging capabilities, enabling our clients to enjoy the competitive advantages of single-source packaging services under one roof.”

[Versatile sachet packaging](#) accommodates creams, serums, tablets, capsules and powders, and provides four-sided sealing, hole punch, perforation, lot and date code printing and other important functionality.

Many product formulators and manufacturers are transitioning to smarter packaging. Offering soft-sided pouch packs to replace rigid plastic packaging is increasingly popular, says Gittlin, observing that pouch packs use less packaging material, create less solid waste, require less shelf space, and cost less to ship.

JKG Group provides a full spectrum of [product packaging services](#), from design, dielining and prototyping to printing and fine finishing—as well as warehousing, kitting, fulfillment and shipping services. The company produces custom packaging for cosmetics and beauty products as well as for sports equipment, leather goods, jewelry, apparel, small household appliances, hair care accessories, nutritional supplements and other consumer packaged goods.

JKG Group is a First Place winner in the [2018 Package Printing Excellence Awards](#) and a [2018 Florida Print Awards](#) Gold winner for outstanding booklet and catalog printing. The company ranks among the top ten commercial printers in South Florida, according to the *South Florida Business Journal*.
